General Information

Financial literacy is a skill that is essential to living and thriving in the modern world. Financial *ill*iteracy can limit career and economic opportunities, lead to high debt levels and unstable financial futures. To meet the 21st century needs of students, their education must provide them with the knowledge and skills they need to build financially stable lives. This is what Money Matters is all about, making good money decisions that benefit you.

Course Materials

No course material needed for this course.

Required Text

Dave Ramsey books and videos found on my website.
